DETAILED ACTION

Response to Amendment

1. The Applicant is correct in that the Examiner inadvertently checked the objection to the declaration box. The Declaration has been considered and is proper.

Specification

2. The amendment to the abstract has been considered and entered.

Drawings

3. The correction to the drawings filed on May 24, 2004 has been considered and entered.

Allowable Subject Matter

4. Claims 1-19 are allowed.
5. The following is an examiner's statement of reasons for allowance:
 - With respect to claim 1, the Prior Art does not disclose selecting a position control section if the object is located within a target range and selecting positioning and speed control sections if the object is not within a target range
 - With respect to claims 12 and 16, the Prior Art does not disclose a means for performing an encoder interruption with the limitations set forth by the Applicant when the object is within a target range, and when the object is not within the target range, using the control parameter, the timer counter, and the position counter until the object reaches a set value.
 - With respect to claim 17, the Prior Art does not disclose operating a motor control system based on the output of a position detecting part, wherein a selection part selects either a third control part, as claimed by the Applicant or the selection part

Art Unit: 2837

selects both a first and second control part, as claimed by the Applicant based on said output of said position detecting part.

- With respect to claims 18 and 19, the Prior Art does not disclose performing timer interruption control and encoder interruption control as claimed by the Applicant.

6. Therefore, based on the amendments presented by the Applicant, the Examiner acknowledges the Prior Art fails to make obvious the Applicant's claimed invention.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
